MOMENTUM Routine Immunization Transformation and Equity (the project) applies best practices and explores innovations to increase equitable immunization coverage in USAID-supported countries. It works to build countries’ capacity to identify and overcome barriers to reaching zero-dose and under-immunized children and older populations with lifesaving vaccines and other integrated health services, including rebuilding immunization systems adversely affected by the pandemic.

**Working in 18 Countries**

**74 Partners Around the World**

**Technical Areas of Support for COVID-19 Vaccination**
- Planning and Coordination: 14 countries
- Immunization Supply Chain Management: 7 countries
- Health Worker Capacity Building: 14 countries
- Demand Generation and Community Engagement: 14 countries
- Data Systems and Data Use: 12 countries
- Direct Service Delivery: 5 countries

**Global Presence**

- Moldova
- Bosnia & Herzegovina
- Serbia
- North Macedonia
- Kyrgyz Republic
- India
- Vietnam
- Mozambique
- Madagascar
- Ghana
- Nigeria
- South Sudan
- DRC
- Kenya
- Mozambique
- Mali
- Haiti
- Niger
- Moldova
- Bosnia & Herzegovina
- Serbia
- North Macedonia
- Kyrgyz Republic
- India
- Vietnam
- Mozambique
- Madagascar
- Ghana
- Nigeria
- South Sudan
- DRC
- Kenya
- Mozambique
- Mali
- Haiti
- Niger

**Global Results**

- Directly supported the vaccination of 19.3 million people with COVID-19 vaccines:
  - India: 15,550,645
  - Mozambique: 1,393,943
  - Nigeria: 2,077,145
  - DRC: 245,178
  - Kenya: 74,830
- Trained health professionals on COVID-19: 119,080
- Digital health solutions supported: 10
- Advanced capacity for gender equity in immunization: 35 countries
- Supported the vaccination of 548,422 zero-dose children who had not previously received DTP1:
  - Kenya: 54,795
  - DRC: 136,415
  - Mozambique: 357,212

**Global Knowledge-Sharing Events**

- 37 events
- 7,711 participants

**Developed and/or contributed to Global and regional policies**

- Mozambique’s Routine Immunization Acceleration Plan
- Recovering and Strengthening Immunization Programmes in the Context of the COVID-19 Pandemic (WHO)
- Guidance on Operational Microplanning for COVID-19 Vaccination (WHO)

**The project contributed to**

- 15 global and regional working groups that supported country planning for COVID-19 vaccination.
- 16 global and regional working groups on immunization topics ranging from supply chain, gender, data, COVID-19, urban immunization, LA2030, zero-dose, equity, life course and more.
