

# FACILITATOR RESOURCE

## RDT game

**INSTRUCTIONS FOR FACILITATOR:** Photocopy the page and cut into individual strips. Make enough copies to have one set of strips for every 2 trainees (e.g., if there are 10 trainees, you will need to have 5 pages/5 sets of strips). If using a blood transfer device different than capillary tube, adapt the three steps in gray on Page 1 accordingly.

<b>Look for the expiry date at the back of the packet</b>
<b>Put on new gloves</b>
<b>Open the packet and remove the items</b>
<b>Write the child's name on the test tray</b>
<b>Open the alcohol swab and clean the finger</b>
<b>Open the lancet and prick child's finger to get a drop of blood</b>
<b>Discard the lancet in the Sharps Box</b>
<b>Use the capillary tube to collect the drop of blood</b>
<b>Use the capillary tube to put the drop of blood into the square hole A on test tray</b>
<b>Discard the capillary tube in the Sharps Box</b>
<b>Add buffer into the round hole (marked "B") on test tray.</b>
<b>Wait 15 minutes after adding buffer</b>
<b>Read/interpret test results</b>

**Dispose of all the waste in non-sharps waste containers (one for infectious waste and one for non-infectious).**

**Record the test results in your register**
